Release # 050520

TELUS MOBILITY TO DISTRIBUTE GO TEST GO QUIZZES

Hamilton, Ontario, Canada - (May 20, 2005) – Mobile practice and self-assessment quiz developer Go Test Go Inc. today announced an agreement with Canada's top operating wireless carrier, Telus Mobility, that will see Go Test Go's expanding library of educational and entertaining content available to Telus subscribers through the "Do More" function of their phones.

Go Test Go's innovative mobile test preparation quizzes for English as a Second Language, Canadian Driving and Canadian Safe Boating will be featured under a new Education section, while trivia, IQ and personality quizzes will be made available under the existing Games categories. Go Test Go quizzes are expected to be available to Telus customers early this fall.

About Go Test Go:

Go Test Go develops mobile learning applications for consumer and enterprise use worldwide. Go Test Go partners with leading content, technology, distribution and carrier partners to deliver valuable content within a rich and responsive downloaded mobile application - anywhere, anytime. Go Test Go's unique approach to application development, content creation and global distribution, enable cost effective deployment of mobile learning to niche audiences as well as to mass-markets within a population of 600 million plus Java-enabled phone users today.
